INDEX

Allis, Edward Phelps, Jr. Concerning the homologies of the hypophysial pit and the polar and trabecular cartilages in fishes, 247
— Concerning the mouth opening and certain features of the visceral endoskeleton of *Cephalaspis*, 509
Anthropoids, new cranial triangle in. Craniometric Memoirs, No. III. By John Cameron, M.D., D.Sc., 122
— and man, craniopharyngeal canal in. By A. J. E. Cave, M.B., 363
— — emissary foramina of the cranium in. By G. I. Boyd, M.D., F.R.C.S. (Edin.), 108
Appointments. Recent appointments in Chairs of Anatomy and Zoology, 401
— University of Edinburgh Chair of Anatomy, 550
Arterial stems and ventricles, transposition of. By Thomas Walmsley, 172, 528
Arteries, of the cerebral cortex in the chimpanzee (*Anthropopithecus Troglodytes*). By Joseph L. Shellshear, 45
Asherson, N. Surgical Anatomy of the premastoid space, 170
Ashley-Montagu, M. F. Post-frontal and orbital element in a young gorilla skull, 446
Association for Research in Mental Diseases. The cerebellum. An investigation of recent advances. Review, 278
Atlanto-occipital fusion, unusual case. By H. L. H. H. Green, 140
Atlas and axis vertebra, abnormal. By U. V. Nayak, M.B., B.S., 399
Australian aboriginal, growth of brain of. By H. H. Woollard, 224
Axis vertebra and atlas, abnormal. By U. V. Nayak, M.B., B.S., 399

Baboons and macaques, effects of oestrin on. By A. S. Parkes and S. Zuckerman, 272
Ballière's synthetic anatomy. By J. E. Cheesman. Pt. IV. Thigh and hip. Pt. IX. Head and neck. Pt. IX A. Pterygo-maxillary region. Reviews, 281. Pt. VII. The thorax. Pt. VIII. The abdomen. Reviews, 559
Beattie, J. Oculo-motor nerve, 177
Beattie, J., and F. L. Horsfall. An anomalous facial muscle, 145
Beesly, Lewis, F.R.C.S. (Edin.) and T. B. Johnston, M.B., Ch.B. Manual of surgical anatomy. Review, 404
Blair, D. M. Skull (with skull-cap missing) grooves absent, 175
Blood vascular system of the rabbit, note on an abnormality in. By Nellie B. Eales, D.Sc. (Lond.), 152
Boyd, G. I., M.D., F.R.C.S. (Edin.). The emissary foramina of the cranium in man and the anthropoids, 108
Brain, growth, of Australian aboriginal. By H. H. Woollard, 224
— method of staining for macroscopic study. By John H. Mulligan, M.B., Ch.B. (Aberd.), 468
Brambell, F. W. Rogers. The development of sex in vertebrates. Review, 278
Broesike, Prof. G. Repetitorium Anatomicum. Ed. 2 by Dr Mair. Review, 280
Broom, Robert, D.Sc., F.R.S. The origin of the human skeleton. Review, 277

Calkins, Levy A., and Richard G. Scammon. Development and growth of the external dimensions of the human body in the foetal period. Review, 402
Cameron, John, M.D., D.Sc. Craniometric Memoirs, No. III. The superior gnathic triangle. A new cranial triangle. Its significance in modern and fossil man, the anthropoids and lower mammals, 122
Campion, George C., L.D.S., and Matthew Young, M.D. Relative positions of the cartilaginous and osseous transmeatal axes in the human head, 328
Cartilages, polar and trabecular, of fishes, homologies of the hypophysial pit. By Edward Phelps Allis, Jr, 247
Cave, A. J. E., M.B. Craniopharyngeal canal in man and anthropoids, 363
— Deformity of the cervical spine, 171
— Further case of fusion of the third and fourth cervical vertebrae, 170
— Further observations upon the inferior grooving of the first rib, 165
Cephalaspis, visceral endoskeleton of, mouth opening and certain features of. By Edward Phelps Allis, Jr, 509
Cerebellum of *Sphenodon punctatum*. By J. C. R. Hindenach, M.B., Ch.B., 283
Cerebral cortex, arterial supply of, in the chimpanzee (*Anthropopithecus Troglodytes*). By Joseph L. Shellshear, 45
Cervical vertebrae, spinous processes of, in native races of South Africa. By L. R. Shore, M.A., M.B., M.R.C.P., D.P.H., 482
— third and fourth, further case of fusion. By A. J. E. Cave, 170
Cervix uteri, foetal. By R. H. Hunter, 164
Chimpanzee (*Anthropopithecus Troglodytes*), arterial supply of the cerebral cortex in. By Joseph L. Shellshear, 45
Condylar process, supra. By R. K. Rau, L.R.C.P., F.R.C.S. (Edin.) and D. Siva Subrahmaniam, M.R.C.S. (Eng.), L.R.C.P., 392
Congenital abnormality of the heart with apparently an unusual abnormality of the great vessels. By C. P. Martin, M.B., M.Sc., 395
— absence of the radius in a woman aged 38. By Cecil P. G. Wakeley, F.R.C.S. (Eng.), F.R.S. (Edin.), 506
Contributions from the Department of Anatomy of the Peking Union Medical College, Peking. Vol. v. Collected Papers, nos. 84–114, 1930. Review, 405
Cranial triangle. Its significance in modern and fossil man, the anthropoids and lower mammals. Craniometric Memoirs, No. III. By John Cameron, M.D., D.Sc., 122

Craniopharyngeal canal in man and anthropoids. By A. J. E. Cave, M.B., 363
Cranium, emissary foramina of, in man and the anthropoids. By G. I. Boyd, M.D., F.R.C.S. (Edin.), 108
Cutaneous glands in man. By H. H. Woollard, 169
Cytoplasm: the early development of the ferret. By Donald Mainland, 411

Davies, Francis, M.D. (Lond.). Conducting system of the monotreme heart, 164, 339
Davies, F., and E. P. Stibbe. Descriptive anatomy of the intercostal nerves, 178
Dental nerve, inferior, intra-mandibular course of. By C. Starkie, B.Sc., and D. Stewart, M.Sc., M.R.C.S., L.R.C.P., 319
Derry, D. E., and Girgis Sidhom. The dates of union of some epiphyses in Egyptians from X-ray photographs, 196
Durward, Archibald, M.B., Ch.B. The cell masses in the forebrain of *Sphenodon Punctatum*, 8

Eales, Nellie B., D.Sc. (Lond.). Note on an abnormality in the blood vascular system of the rabbit, 152
Ectopia vesicae and epispadias, perineal muscles and urethra in cases of. By A. Ralph Thompson, 161
Egyptians, union of epiphyses, dates of, from X-ray photographs. By Girgis Sidhom and D. E. Derry, 196
Embryo, human, early, development of the connecting stalk. By J. Florian, 165
— — model of an abnormal heart in. By C. J. Patten, 174
Eminentia, details of, about the neck of the femur. By P. N. B. Odgers, 352
Empreinte, details of, about the neck of the femur. By P. N. B. Odgers, 352
Epiphyses, dates of union, in Egyptians from X-ray photographs. By Girgis Sidhom and D. E. Derry, 196
Epispadias and ectopia vesicae, perineal muscles and urethra in cases of. By A. Ralph Thompson, 161
Ewing, Alex. W. G. Aphasia in children. Review, 279
Eye, muscles, innervation of. By H. H. Woollard, 215
— — nerves of, afferent fibres. By E. P. Stibbe, 176

Face, muscle of, anomalous. By J. Beattie and F. L. Horsfall, 145
Femoral hernia in Indians (in Bengal), anatomy of the region concerned in. By N. Pan, 541
Femur, neck of, details: (1) The eminentia, (2) The empreinte. By P. N. B. Odgers, 352
Ferret, early development of: The cytoplasm. By Donald Mainland, 411
Fetscher, E., and E. B. von Poller. Das Pollersche Verfahren zum Abformen an Lebenden und Toten sowie an Gegenständen. Review, 559
Fielding, Una and Gregor Popa. Portal circulation from the pituitary to the hypothalamic region, 88
Fishes, polar and trabecular cartilages of, homologies of the hypophysial pit and. By Edward Phelps Allis, Jr, 247
Flecker, H., M.B., Ch.M. (Sydney), F.R.C.S. (Edin.). Röntgenographic study of the movements of abduction at the normal shoulder joint. Review, 402
Florian, J. Development of the connecting stalk in early human embryos, 165
Florian, J., and J. P. Hill. Development of head-process and prochordal plate in man, 165, 242
Flower, J. M. Accessory soleus muscle, 174, 548
Foramen of Magendie. By Lambert Rogers and C. M. West, 457
Forebrain, cell masses in, of *Sphenodon Punctatum*. By Archibald Durward, M.B., Ch.B., 8
Francis, Eric T. B., B.Sc. (Lond.). Case of an abnormal hyo-branchial skeleton in *Salamandra maculosa* (Laur.), 388
Frankfurt plane, endocranial equivalents, and the exocranial position of the internal auditory meatus. By Lt.-Col. L. A. Hodgkinson, I.M.S., 96

Gaskell, Augusta. What is life? Review, 157
Germ cells, attempts to promote the reformation of. By Margaret Hill and A. S. Parkes, 212
Gladstone, R. J., and C. P. G. Wakeley. Rudimentary first thoracic and cervical ribs, 173
Glands, cutaneous, in man. By H. H. Woollard, 169
Gnathic triangle, superior, a new cranial triangle. Its significance in modern and fossil man, the anthropoids and lower mammals. Craniometric Memoirs, No. III. By John Cameron, M.D., D.Sc., 122
Gorilla skull, post-frontal and orbital element in. By M. F. Ashley-Montagu, 446
Grahame, T., F.R.C.V.S., and J. Tehver, Dr. med. vet. Capsule and trabeculae of spleen of domestic mammals, 473
Green, H. L. H. H. An unusual case of atlanto-occipital fusion, 140
— Occurrence of a tenuissimus muscle in a human adult, 266
Green, Robert M., M.D. Text of Warren's Handbook of Anatomy. Review, 405
Guam, skulls of prehistoric inhabitants, non-metrical morphological characters. By Frederic Wood-Jones, 426

Haemopoietic system, mammalian lymphoid tissue and its relation to the remainder of. By J. M. Yoffey, M.Sc., M.D. (Manch.), 333
Hartridge, H., M.A., Sc.D., M.D., M.R.C.P., F.R.S., and F. Haynes, M.A. Histology for Medical Students. Review, 403
Hawaiian skull, non-metrical morphological characters. The non-metrical morphological characters of the skull as criteria for racial diagnosis. Part IV. By Frederic Wood-Jones, 368
Haynes, F., M.A., and H. Hartridge, M.A., Sc.D., M.D., M.R.C.P., F.R.S. Histology for Medical Students. Review, 403

Head, human, relative positions of the cartilaginous and osseous transmeatal axes in. By George C. Campion, L.D.S., and Matthew Young, M.D., 328
Head-process and prochordal plate in man, development. By J. P. Hill and J. Florian, 177, 242
Heart, abnormal, in a human embryo, model. By C. J. Patten, 174
— congenital abnormality of, with apparently an unusual abnormality of the great vessels. By C. P. Martin, M.B., M.Sc., 395
— lizard's, developmental abnormality of. By Rupert A. Willis, M.D. (Melbourne), 137
— monotreme, conducting system of. By Francis Davies, M.D. (Lond.), 164, 339
Hepburn, David. Obituary notice (with photograph), 551
Hernia, femoral, in Indians (in Bengal), anatomy of the region concerned in. By N. Pan, 541
Hill, J. P., and J. Florian. Development of head-process and prochordal plate in man, 177, 242
Hill, Margaret and A. S. Parkes. Attempts to promote the re-formation of germ cells, 212
Hindenach, J. C. R., M.B., Ch.B. The cerebellum of *Sphenodon punctatum*, 283
Horsfall, F. L., and J. Beattie. An anomalous facial muscle, 145
Howell, A. Brazier. Aquatic mammals. The adaptation to life in the water. Review, 280
Hunter, R. H. Development of human vagina, 163
— Foetal cervix uteri, 164
Hurst, C. H., and A. Milnes Marshall. A Junior course of practical Zoology. Revised by H. G. Newth. Review, 557
Hypophysial pit, and the polar and trabecular cartilages of fishes, homologies of. By Edward Phelps Allis, Jr, 247
Hypothalamic region, portal circulation from the pituitary to. By Gregor Popa and Una Fielding, 88

Indians (in Bengal), femoral hernia in, anatomy of the region concerned in. By N. Pan, 541
Iris, pattern varieties of, in vertebrates. By Ida C. Mann, 162

Johnston, T. B., M.B., Ch.B., and Lewis Beesly, F.R.C.S. (Edin.). Manual of surgical anatomy. Review, 404

King, E. S. J., M.D., F.R.C.S. An anatomical analysis of an example of polyorchidism, 427

Lack, Lt.-Col. L. A. Hodgkinson, I.M.S. Endocranial equivalents of the Frankfurt plane and the exocranial position of the internal auditory meatus, 96
Lizard's heart, developmental abnormality of. By Rupert A. Willis, M.D. (Melbourne), 137
Luys, centre median nucleus of. By David McK. Rioch, 324
Lymphoid tissue, mammalian, and its relation to the remainder of the haemopoietic system. By J. M. Yoffey, M.Sc., M.D. (Manch.), 333

Macaques and baboons, effects of oestrin on. By A. S. Parkes and S. Zuckerman, 272
McConnel, Lieut.-Col. James K. Shorter convalescence. Review, 280
McMurrick, Prof. J. Playfair. Leonardo da Vinci. Review, 556
Macula, development, influence of on the cortex. By G. E. Smith, 169
Magendie, foramen of. By Lambert Rogers and C. M. West, 457
Mainland, Donald. Early development of the ferret: The cytoplasm, 411
Mammals, domestic, capsule and trabeculae of spleen of. By J. Tehver, Dr. med. vet., and T. Grahame, F.R.C.V.S., 473
— lower, new cranial triangle in. Craniometric Memoirs, No. III. By John Cameron, M.D., D.Sc., 122
Man and anthropoids, craniopharyngeal canal in. By A. J. E. Cave, M.B., 363
— — emissary foramina of the cranium in. By G. I. Boyd, M.D., F.R.C.S. (Edin.), 108
— modern and fossil, the anthropoids and lower mammals. A new cranial triangle, and its significance. Craniometric Memoirs, No. III. By John Cameron, M.D., D.Sc., 122
